**Stage 1.5/ 1.5+ Gauge Controller**

innovations

The all-new water-methanol injection gauge from Bosphorus Innovations gives you the benefits of a boost gauge and water-methanol controller/ fail-safe all in one! The new controller comes with a built-in 10 bar/ 145 psi manifold absolute pressure sensor. That allows you to set water-methanol in desired boost pressure. The first stage and second stages are adjustable to match what the engine requires.

The new white and red dual-tone color LCD screen shows boost, injection, second stage activation, test modes, fault codes, setting response time, resolution, fine adjustment, power saving mode, lock the keys and out put modes in a bright easy to read the screen.

#### Connection and settings:

| COLOR | FUNCTION         | SECTION mm2 | LENGHT  |
|-------|------------------|-------------|---------|
| Brown | 12v+ Supply      | 0,15        | 1 meter |
| Blue  | GND -            | 0,15        | 1 meter |
| Black | Trigger 0v (GND) | 0,15        | 1 meter |

Scan for how to set

#### The box contains:
